JBUDSWORK

WIRELESS ON-EAR HEADSET

Whether at home or the office, JBuds Work wireless over-ear headset offers the best all-around performance for the workday. The noise canceling microphone ensures crystal, clear calls. The powerful boom mic can be rotated up, when you're focused independently or down to allow colleagues to hear just you (not the dog barking or the doorbell). Transition from mobile to laptop without touching any settings and enjoy JBuds Work wired while stationary at your computer or wireless for more mobility to multitask.

HBJBUDSWORKRBLK4

ALL-WEEK PLAYTIME AND COMFORT

You'll get a full 60+-hour work week on one charge – and all-day comfort with Cloud Foam earcups. Rotate the boom microphone for listening only – and back down to take a call or video conference.

DUAL CONNECTIVITY with BLUETOOTH MULTIPOINT

Connect wirelessly via Bluetooth to your PC, Mac, mobile and more. Or plug-in with the included USB-C to 3.5mm cable. Plus with Bluetooth Multipoint technology you can connect to any two devices simultaneously. Transition from mobile to laptop without touching any settings.

CLEAR CALLS

One noise canceling mic eliminates environmental sounds while the other mic picks up your voice for crystal clear calls.

REMOVEABLE EARCUP

For a more natural office feel, go Mono mode and remove the left earcup so you can focus on work while still being aware.

AUTO-ANSWER AND QUICK MUTE

Flip down the boom mic to automatically answer a call – or up to hang-up. Quickly mute via the button on the earcup. A red LED at the end of the boom mic indicates whether mute is on. No more of the dreaded 'you're muted' on video conferences.

TOTAL CONTROL

Be in complete control to play/pause, answer/reject, volume, mute and track control with the convenient multi-functional buttons located on the headset. Or choose between two EQ settings: Work or Music mode.
